# BERKELEY — CENTER — PILGRIMAGE

**3D PAPER MODEL**  
PRINT, CUT, FOLD, ASSEMBLE

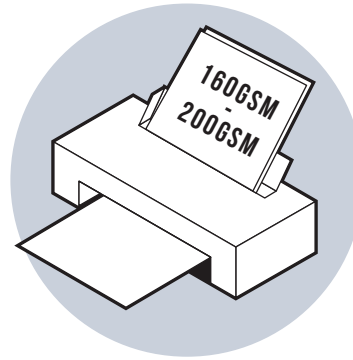

SHOW OFF YOUR COMPLETED ARTWORK ON SOCIAL MEDIA WITH THE HASHTAG **#BERKELEYCENTER**  
FOLLOW US ON **@BERKELEYATYALE** TO SEE EVERYONE'S CRAFTY HANDIWORK!

# Instructions

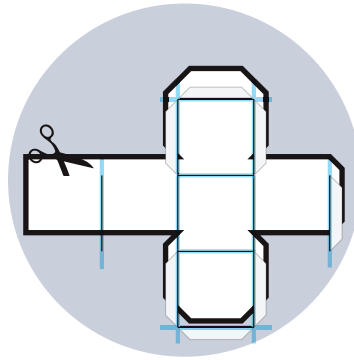

## 1. What you need:

- Scissors or cutter
- Craft glue
- Folding bone or thick needle
- Ruler

## 2. Print

Print the pattern on US-letter. We recommend to use 160gsm-200gsm paper weight.

## 4. Score & Cut

Using a folding bone or a thick sewing needle and a ruler, score along the folding lines so you can easily fold the pieces. Cut the pattern pieces along the outer edge.

## 4. Fold

Fold along the creases either bringing the two edges away from you (Mountain Fold) for the plain dashed line or fold towards you (Valley Fold) for the dot/dashed line folds.

## 5. Glue

Glue each building block of the model separately. Apply the glue on the glue flaps as shown in the illustration.

## 6. Assembly

Put all the individual pieces together. Refer to the small labels that indicate which piece goes where and assemble the model in the correct order.

# Order of assembly
